Professional Summary

Data Analyst with hands-on experience in SQL, Python, Power BI, Tableau and Excel, specializing in transforming raw datasets into actionable business insights. Expertise in ETL pipeline development, data cleaning, exploratory data analysis (EDA), and interactive dashboard design. Proven track record of enhancing operational efficiency through data-driven solutions. Seeking to leverage analytical, engineering, and problem-solving skills to tackle large-scale data challenges at Google.

Experience

Trainee - Data Science & Analytics (Intern) — Cravita Technology Pvt.limited

01 July 2026
Pune, India .

- Executed data analytics tasks involving SQL query optimization, ETL and data transformation with MySQL Workbench.
- Performing **data cleaning, transformation and analysis** to derive meaningful insights.
- Created and delivered Power BI dashboards to provide actionable business intelligence insights for internal stakeholders.
- Contributed to end-to-end data workflows, including ingestion, cleaning, transformation, and visual reporting.
- Processed sample datasets by cleaning, transforming, and loading data into Power BI, enhancing consistency and enabling accurate reporting through structured ETL.

Projects

ShopKart E-Commerce Sales Dashboard — Power BI, Excel - [Project link](#)

- Designed and implemented a scalable e-commerce sales dashboard using Power BI to analyze sales, profit, quantity, orders and discount performance.
- Developed KPI cards, monthly sales trend, category-wise quantity, top 5 products, top states and order status visualizations.
- Applied DAX measures and calculated columns for dynamic filtering, enabling detailed drill-down analysis across product categories and states.

Employee Payroll & Attendance Dashboard — Excel

- Developed an interactive Excel dashboard to analyze employee salary, attendance, bonus, overtime, and leave data for 1,000 employees.
- Analyzed NetSalary, Average Salary, Attendance %, Overtime Hours, and Top 5 regular employees to support workforce insights.

Technical Skills

Programming & Libraries: Python, NumPy, Pandas, Matplotlib

Databases & Query Languages: SQL, MySQL, PostgreSQL, MySQL Workbench, SQL Optimization

Data Analytics: Data Cleaning, Data Pre-processing, Exploratory Data Analysis (EDA),Data Validation, ETL,Data Transformation

Visualization & BI Tools: Power BI, Tableau, Microsoft Excel, DAX, Dashboard Development, Data Storytelling.(Vlookup)

Education

B.Tech in Electronics and Telecommunications Engineering

Parvatibai Genba Moze College of Engineering Pune - CGPA: 7.0

Nov 2022 - Jul 2026

Certifications

Data Analytics Job Simulation — Deloitte

Python Programming — LinkedIn Learning MS

Excel — Simplilearn

GenAi Data Analytics Job Simulation - TATA
